Description: Panzer Dragoon Mark II is an action role-playing game developed by Nippon Ichi Software and released in 1998 exclusively for the Sega Saturn. The game was the second of a trilogy, preceded by Panzer Dragoon Zwei in 1997 and succeeded by Panzer Dragoon Orta in 2000. It was released in North America under the title Panzer Dragoon II Zwei and served as a prequel to Panzer Dragoon Saga. Set after the events of Panzer Dragoon, the player controls a dragon that must travel the world in search of an enchanted crystal that will grant him immortality. As the game progresses, the dragon gathers a party of allies and must fight through hordes of enemies and bosses in order to obtain the crystal. The gameplay of Panzer Dragoon II is similar to that of previous Panzer Dragoon games, in which the player controls a dragon with a customizable arsenal of weapons. However, a key difference is that the dragon, which can be controlled via the Sega Saturn's shoulder buttons, is airborne for the majority of the game.
