Barcode Label (2022)

What's New In Barcode Label?

Barcode & Label is a software application whose purpose is to help you design personalized barcodes that may include custom text messages, different geometrical shapes, images, and clipart objects. The tool is specifically developed for Windows 8 users. It also works on Windows 10 devices. Straightforward layout The program sports a clutter-free working environment. A lot of the space is dedicated to the editing area where you generate barcodes, preview the adjustments, and quickly pick one of the available editing utilities which are placed at the bottom of the workspace. Handy tips, online help manual, and video tutorial are included in the package, and you may appeal to them in case you need extra assistance with the configuration process. You can also rely on tooltips for viewing short descriptions about the program's features. Barcode customization options Barcode & Label offers you the possibility to place a barcode to the preferred position in the workspace using drag-and-drop actions. Plus, you are allowed to resize and rotate it to different angles. When it comes to barcode customization parameters, you can choose between different barcode symbology types (e.g. Code 39, QR code, POSTNET), input the target number, adjust the input text in terms of font, color, and size, as well as set up the dimensions of the barcode. What's more, you can insert rectangles, circles, and lines, alter the color and thickness of the strokes, embed user-defined text messages, as well as add images. The tool works with different image formats (e.g. JPG, PNG, BMP) and lets you choose between several clipart objects which are grouped in different categories (e.g. Animals, Objects, Plants, Signs). Other important features worth being mentioned enable you to perform clipboard tasks (cut, copy, paste), delete the selected objects, undo or redo your actions, save the output design or print it by specifying the number of labels that are shown on the page, select from multiple templates, and customize each template. Conclusion To sum things up, Barcode & Label comes packed with smart features for helping you create barcodes. It can be tweaked by less experienced users and professionals alike. 4 reviews for Barcode & Label 5 out of 5 Robin Fantham Jul 19, 2016 I've been using this program for many years now, and I have never had a problem with it. 5 out of 5 pjvillancourt Jan 15, 2017 Barcode & Label is a software application whose purpose is to help you design personalized barcodes that may include custom text messages, different geometrical shapes, images, and clipart objects. The tool is specifically developed for Windows 8 users. It also
