Upcoming Games From Snesmash We're going to be focusing primarily on our current projects, as well as the ones that we're close to finishing, and the ones that aren't quite finished. We feel that there is enough of a variety that, once again, this recap doesn't turn into a jumbled and confusing mess. I'm going to try to keep these as non-anecdotal as possible, as I feel that those really don't help very much to see through the new eyes, as people familiar with games from SNESmash know what to expect... and while it's not bad, it's not great either. MAMAA Overall This game was delayed a bit longer than expected, but we have good news and bad news to share. The good news, we are going to be releasing the game by the end of this year. Now that sounds just awesome, but it unfortunately comes with a caveat. The bad news, MAMAA (sorry in advance if you don't want to hear this) will be full of bugs, as we went through the process of doing all the systems and whatnot during the time of the delay. We're not just doing bug fixes, we're doing bug fixes and adding additional features. There are more features in it, as we decided to add a whole new system where you can now c9d1549cdd

Hornshark Games has come up with a nice unique game that will test your skills. You play as the acclaimed green character, "Libby" and your goal is to pass the obstacles that you encounter and meet up with your parents on the other side. The game consists of 20 different levels and will most likely challenge your "tilting" - skills to your full extent. You earn points and score levels depending on how well you tilt in each level. How much score and points you get depends on your speed, tilt power and accuracy. In between each level you will level up and earn special powers like super speed, tilt, invisibility, butterfly or additional tilts. This game is one of the hardest games that I have played. It is going to test your "tilting" - skills to its full extent. The tilt power is rather weak and must be used carefully. There are a lot of complicated powers and powers that you have to combine with each other and sometimes they don't want to work so use them with caution. This game will require some patience. Play "Seven Horns From Tilt" today! Play "Seven Horns From Tilt" at Hornshark Games! 5 LEVELS OF TILTING (Themed Levels): Stability Dome (Levels 1-5): Stable tilt levels with larger and smaller obstacles. Climbing Mountain (Levels 6-10): Move across a tilted mountain and face tricky platforms with spikes inbetween. You will have to jump across dangerous areas where spikes and traps are waiting for you. Daredevil Runner (Levels 11-15): This is an interesting one. You have to run as fast as you can through a valley with many tricky obstacles and power ups inbetween. Hornshark Real Estate (Levels 16-20): Its time for you to buy a house! Successful players will be given a good score and level up. Improve your tilting skills and get the highest score! New Live Facebook Video Chat! Click on my name to get my chat profile! What's new:

Classes Partner Grant for Women Nearly 1,000 Albertson students registered for this past summer's emergency fund-raising dinner, nearly doubling last summer's turnout. This year's crowd of 769 raised a record high of \$13,000 toward the drought-stricken communities. This year's proceeds will kick in the door to a new women's campus center. San Ramon Valley women's nonprofit HeadStart has been named one of three recipients of \$20,000 from a recent NCAA Stroke of Heart grants program. Serving more than 1,000 low-income students ages six- and seven-years-old, HeadStart-Albertson will receive education grants in spring 2012 to develop a program focused on literacy. Read more here: When school started again in the fall, nearly 100 of the school's 1,000 students and their families moved into a new, \$65 million complex built in Albertson. Adrienne Desrochers, one of those families, moved her two kids and five-year-old white kitten from Florin to Albertson in 2008. Desrochers, 31, has two kids in preschool and one in kindergarten. The four move to the new school complex is one of the largest seismic upgrades in the area. Students and parents received emails as school was let back into sessions across the school complex on Aug. 14. Facing an intimidating task of getting to know over 2,500 new students and nearly 1,100 faculty, staff and parents, most do the best they can, they said. "It's been really really helpful to meet new friends," Desrochers said. "It's awesome when you meet people who are more like you," she said. HIGH SCHOOLS Beyond expectations When the Albertson High School Science and Math team finished second in the state competition in 2008, it was a true surprise in an area that was used to finishing near the bottom in the state contests. The students and coaches seem pleased with the team's performance, although the team must now turn its attention to the 2012 state contest in San Francisco. Since the team clinched the state title last summer, Al

Ailment is a single-player action game in which you have to defeat bosses and survive the dangers of the different levels. You can also try to save the crew of your ship. Ailment is a game I worked on pretty much alone for 9 months with no budget, and it was actually released this year and it's just the beginning. The game is free-to-play so there is no in-app purchases. The full version of Ailment has 10 levels and one boss. If you want to try the full version, you can request the in-game key from me here: Thank you for watching! Make sure to give your feedback in the comments and thumbs up for more videos like this! This is a really well put together game! Even for just having one person working on it and handling it, the game looks and feels very professional and is just really fun to play. Within an hour or 2 of playing it, I immediately recommended the game to my friends! All around it's a great game. "I never write reviews about games or other apps just because I don't get passionate enough to take the time to write a review. However, this game has changed that for me. This game is really well thought out with a bunch of little hidden eggs from space movies. Really enjoyed the game while it lasted. Really hope these guys will come out with another game like this! Would even be paying a few dollars for it." "Lived up to my expectations. I definitely recommend it to whoever is reading this." Ailment is a pixel-art action game which takes place on a spaceship in a far away galaxy. The main character wakes up in a spaceship after being unconscious for three days to discover the whole crew had turned into enemies. The last thing he remembers was returning from another ship where he was on a rescue mission, but everyone on that ship was already dead. He has to remember what happened and find out the truth. Features: * Many different weapons * Brutal death animations * Exciting story * Pixel art graphics * Always talkative character * Atmospheric sound effects * Dramatic surroundings * Ability to bring NPCs with you About This Game: Ailment is a single-player action game in which you have to defeat
