Welcome to the post-apocalyptic. An unknown power has seized control of vast areas of the earth and mankind. The time of famine is near. Humanity is on the brink of destruction. It has reached a new stage in its existence. Your task is to protect your homeland from the enemy. The virus Petya is a free, single-player shooter, the story will unfold on the way. Fireside PVP - Chaos World SS - Play as an attacker (swap to weapon) - Fight against other players on a special PVP server - In the battle to escape from the chaotic earth. The fight for survival. - Kill each other. Chaos World SS contains many game modes. - To conquer the server and its players... The sequel to "The Ship PVP-Servers". ... and the most popular in PVP at the same time 50 servers and 25 map available for start -> The game is played against new players -> The game is played in full 3D -> The game contains all ships and weapon from "The Ship PVP-Servers". ... I would like to congratulate you on the wonderful site you have created. I have tried a lot of different sites for a PVP game, but yours is by far the best. It is easy to use and lots of new features have been added in the last few days. Keep up the good work!!! It has been long i miss it too, but the website is unresponsive. I will not break the bank by purchasing it, just for one time from you. Would you like to come to Germany again and make the game better for all of us? Fireside PVP - Chaos World SS - Play as an attacker (swap to weapon) - Fight against other players on a special PVP server - In the battle to escape from the chaotic earth. The fight for survival. - Kill each other. Chaos World SS contains many game modes. - To conquer the server and its players... Its all very nice, but in what way could the projectile lock be implemented? In a 360 3d world I dont see how you could face another human, get into range and shoot him. You cant really do that. To me you need to add the possibility for the enemy to change direction. Just like in CS:S. Then you can easily take aim and shoot the enemy. F

Features Key:

Ultimate fun
Regulate multiplayer and cooperative gameplay
Automatic game files management
Keep track of your high scores

View them anytime, anywhere, using a smartphone or just anywhere without internet access.

If you like Candy land and candy crush, this game will take you to new places. In Candy land, you will be a candy hunter, required to trap/collect as many candies as possible to become the most heroic candy around. Without your weapons ready; your time runs out. In the Candy crush, you play the role of a candy jelly with the biggest crush ever. The candy crush is a puzzle game played in different levels. So, collect some candies, before eating them, before crushing them in a place that does not have the right amount of candies. You need to think, play and be super smart to survive in this amazing world.

When it comes to gameplay, you have a few free things to do:

- Get a supreme weapon
- Get more candies
- Crush your enemies

At any time while playing, you can collect more candies by opening the crates found in every level. You can get help on the next level by clicking the red star which appears every few seconds. Once you move through the levels, you will have access to more and more secret levels. Every secret level contains a story and rewards you with new challenges. Since candy land is a puzzle game, there are different levels to play which contain all the candy you may collect.

The underlying game of Candy land is pretty simple, that's why we call this Candy Game.

Some other features of this amazing game:

- Game is entirely free to play
- No internet required
- Get achievements
