When composing photographs, Photoshop users should be aware that some combinations of subject, light, camera settings, and shooting location are more challenging than others. After completing a specific photo project, make a mental note of the things that worked, the things that did not, and the ways you learned to improve. When you compare Photoshop to the graphics programs used by large-format inkjet printers, you realize that Photoshop is a program for the rest of us. Photoshop is the software that can do anything the inkjet printer can do, but with a higher level of sophistication and user-friendliness. Photoshop also can do much more than photo editing, as it can be used as a general-purpose graphics editor and is used for a variety of graphic and web design applications. We think most Photoshop users are experienced enough to use a program like this one, and so we leave a basic tutorial for beginners and refer you to other books for in-depth explanations of the Photoshop basics and various menu options. Photoshop runs on Windows, Mac OS X, and many versions of Unix. If you know a bit of the command-line style of working (what computer commands do exactly and how to understand their output) then a Mac or Windows version of Photoshop is perfectly comfortable to use, and you will be able to get results fast.

Youth Leadership Council The Youth Leadership Council (YLC) is a group of young leaders from across the United States that works to promote youth volunteerism in America. The YLC is organized by the board and staff of the National Youth Leadership Council (NYLC). The YLC is partnered with the American Society of Civil Engineers (ASCE), and is a charter member of the National Youth Advisory Council at ASCE and the National Youth Forum. The YLC sponsors and organizes Youth Volunteer Day on May 16 each year. It also partners with various other youth organizations to create other annual events such as Youth@Work Day, Student Expo for Girls, Middle School Girls Mentoring Program, and the Youth Leadership Summit. The YLC is composed of young leaders from across the country including Youth Advocates, leaders from religious congregations, local community groups, schools, businesses and youth organizations. It is supported by key YLC partners such as the American Society of Civil Engineers, the Girl Scouts of the USA, the National Science Teachers Association, and the National Youth Commission, with each partner contributing to the overall success of the YLC. The YLC is also supported by the Urban League of Cleveland, the National Association of Hispanic Journalists, and the Association for the Advancement of Hispanics/African Americans in Communications, Ohio State University, the National Association of Secondary School Principals, the Organizing Center, the National Association of School Administrators, the National Association of Manufacturers, and the National Children's Museum. The YLC was founded in 1990 by the Board of Directors of the National Youth Leadership Council. It is not funded by the government.
