Self-Isolation is an interactive game of choices, where the player plays the role of a head of the Yublin Federation who needs to issue QR codes to the citizens to go out to work. The game unfolds in 3 stages - Day 1, Day 2 and Day 3. In Day 1, each person needs to provide only food and water for him/herself. In Day 2, each person gets sick with SOVID-19 and needs to stay at home with his/her family. In Day 3, people who did not get sick can take care of everyone. Those who got sick can go out only if they get tested and this is not possible without a QR code. Also, on Day 3, due to a decree, it is necessary to "neglect" the sick people but it is not mandatory to provide them with basic needs. At the end, you need to issue as many QR codes as you can but each issued QR code will cost you more time and money.

Thrallies is a 2D isometric real-time strategy game, similar to the Ico-inspired Shadow of the Colossus from Team Ico. It takes place in the future, following the re-emergence of the ancient, serpentine race known as the Myna. In the previous millennia, the Myna had lived in harmony with the humans, but in their re-emergence they sought to destroy this "infidel" race. However, humanity was able to forge an alliance with the Myna, and by protecting the Garden of the Gods, they were able to defeat the Myna once and for all, trapping them in their own world beneath the earth's surface. In this game, however, the humans are now more war-like in their attitudes, and they have begun to decimate the Myna with the use of their airships. Your task is to forge an alliance with these humans, in order to bring them under your rule.

GAME FEATURES:- Classic real time strategy game.- 2D isometric gameplay.- An epic story line about ancient, serpentine races.- Single player and Local Co-op (offline-coop mode).- Up to 9 allies at a time, including 2 Water Mages who can restore health and Mana to allies.- 70 levels, each with its own story.- Multiplayer and Local-Multiplayer modes.- An intriguing, colorful, and immersive world.- Original and interactive soundtrack.- Beautiful and awe inspiring graphics.- An original, fluid, and intuitive interface that

Artistic Statement Join Shepard Fairey in this state of the art virtual reality experience, where he will share his thoughts and methods behind his artwork. Gameplay Shepard Fairey VR - DAMAGED: What is a Shepard Fairey icon? "I think every Shepard Fairey icon is a postcard for what a person thinks they can achieve in their life. This isn't the ideal. This isn't what you should aspire to. This is just what's possible for you. A Shepard Fairey icon represents the idea that you don't have to be perfect, that you can be a little better. That you can make a little bit more of yourself. The idea that every little bit makes a difference." For more than two decades, Shepard Fairey has been a trailblazer, an artist, and a social activist who has engaged in the most significant events of his generation. His body of work is a reflection of his life, whose struggles include drug use, being an adopted child, and depression. Now Shepard has put his struggles on display in this powerful new exhibit, and an important, perhaps cathartic moment in his life. The exhibit is titled DAMAGED, and as such, focuses on the notion of the first step, and damage as a way of approaching problems. In this exhibit, Shepard Fairey brings together the most iconic artworks and installations of his career. The show starts with a graphic from the Bruce Springsteen track "The River," followed by a one-of-a-kind, 20-by-40-foot print of Shepard's face, then a close-up of his visage. All the way through, Shepard engages in thoughtful, expository monologues that act as guides into the ideas behind his artwork. He also shares his most recent works including a series of artworks that are adaptations of his public figures works from the past. The largest of these will be the first time the "Obey Giant" have been on display since 2001. Throughout the exhibit, Fairey's work captures the tremendous energy of his events, and the visual impact they produced. The works will be exhibited in conjunction with an installation of Shepard's most ambitious project to date. A 20-by-40-foot mural will be set up in the gallery in which Shepard Fairey will be sat with a working urinal that will be calibrated to spray

Marc Lynx is NOT your ordinary company CEO. Lynx is an elf. Not just a fantasy one—a leader of an Elven Court. A strikingly handsome elf in more ways than one. As a master of numerous sciences—computational biology,

mammalian genetic manipulation and genetic engineering, cybernetics, and molecular biotechnology—Lynx has had a successful career running his own research institute. But after receiving a job proposal from the Elphind Company—the biggest company in Bucephaland—he reaches the decision to forsake scientific advancements to start his own lab and solve one problem: How to re-activate the dormant technologies of Menkind. As a result he formed the human company Medigroup. But when Mallory Trench offered to assist the company, Lynx saw an opportunity—a chance to turn Medigroup into a legendary company among his fellow elves and Menkind alike. To put this notion to practice, he's hired a well-known mercenary group known for their well-equipped flygirls, Tiger Triad. Their main task is to bring down the opposition and take down the enemy. But things are not as simple as it seems. An organization known as the New Illuminati has a huge stake in this and appear ready to claw back total domination over the realm. To defeat this group Lynx enlists the help of a young Menchek: a teenage elf genius who uses a super computer he designed to decrypt encrypted New Illuminati files. In doing so he discovers a
